

## WHOLE EARTH POULTRY FEED

- **17% POULTRY GROWER/ FINISHER (crumble) P12986**

Designed as a grower finisher for turkeys & other gamebirds following W/E 20% grower. Also can be used as a longer growing time grower/finisher for broilers & roasters following W/E 22% starter.

**Directions for use:** Feed as a sole ration to turkeys & gamebirds. Turkeys and pheasants 14 weeks-finish & guinea fowl, 10 weeks-finish. Replacement layer pullets, 5-19 weeks. Broilers & roasters 5 weeks-market.

- **17% LAYER (pellets) L41981**

Designed for laying hens, ducks and geese following W/E 17% grower/finisher.

**Directions for use:** Designed as a complete ration to laying birds for the duration of their laying cycle.

- **17% MULTI GRAIN LAYER (mash) L40980**

Designed for laying hens, ducks and geese following W/E 17% grower/finisher. This unique feed contains whole flax for omega 3&6 fatty acids and oyster shell for additional calcium and gut health

**Directions for use:** Feed free choice as a complete ration to laying birds for the duration of the laying cycle.

- **19% BROILER GROWER/ FINISHER (pellet) N11982**

Designed as a shorter growing time grower & finisher for broilers and roasters. Use after 22% starter.

**Directions for use:** Feed free choice as a complete ration to broilers and roasters following W/E 22% starter

All of our bagged feeds have been formulated and manufactured using only natural grains and vegetables; supplying energy, protein, and fat since 2001. Our Manufacturing plant has been ruminant by-product free including, Meat Meal (Specified Risk Material), Animal Fats (Tallow) and Blood Meal since 2003. This proactive step eliminated the risk of cross contamination at all levels of the feeding chain.
